**A MESSAGE FROM MAYOR  
ALAN M. ARAKAWA**

Aloha,

Welcome to the Maui County Recycling, Refuse & Landfill Guide, where you will find the most up-to-date information on how and where to recycle and reuse items, dispose of trash and even make a little money in the process. As our County continues to grow, it is important that we make wise decisions about how we handle items and materials that are no longer of use to us.

Some of these items may be useful to others, and we ask that you take a little time to make sure these items reach the appropriate people and organizations. Other materials can be recycled, and now more than ever it is vital that we recycle everything we can. Please take the time to learn what kinds of items can be recycled at our County recycling centers, as well as those that can be recycled in other ways.

For items that cannot be reused or recycled, we have our hard-working 'Ōpala Pickers, the dedicated County refuse collectors who ensure your trash is handled properly and safely. Please follow directions carefully if you visit the landfills; our expert landfill staff members are there to assist you, and to help protect our 'āina.

Working together, we can make sure that the paradise we call home continues to be the beautiful, clean and safe place we all know and love.

Mahalo for your kōkua,

Maui island residents will be notified when the upcoming event will be held. Look for notices on banners and in the news. In order to drop-off household hazardous waste, residents are required to call EnviroServices to schedule an appointment in advance and to report the types and quantities of materials they plan to bring. Only materials from residents who have appointments will be accepted.

**To schedule an appointment, call EnviroServices at 855-325-3222.**

Examples of materials that may be accepted include: Fluorescent light bulbs, lead acid batteries, pesticides/fertilizers, oil-based paint, flammable liquids and mercury containing items.

Residents who want to dispose of small quantities of HHW before the collection event can: 1) properly absorb liquid HHW and deliver it to the landfill, or 2) pay a HHW business to pick the waste up. See the list of HHW Contractors on the previous page or call the Hotline at 270-7880.

***Items such as used motor oil & latex paint will NOT be accepted as the County has other facilities that accept these materials. For locations, refer to page 10.***

**OPT OUT OF EXTRA PHONE BOOKS** Maui County currently has three phone books. If you do not want all three books delivered, go to [www.YellowPagesOptOut.com](http://www.YellowPagesOptOut.com) & remove your name from the delivery list for unwanted phone books. Depending on the timing, some will still receive the next scheduled delivery, but subsequent issues should cease to arrive.

# WAYS YOU CAN REDUCE

Use a reusable lunch box instead of a paper bag to carry your lunch. You won't have to throw away a paper bag every day!

When you make a purchase, don't take a bag unless you need one.

Rent items you use infrequently, rather than purchase them.

Wrap your gifts in a cloth bag so it can be used over again.

Use cloth napkins instead of paper ones.

Use a sponge or cloth rag instead of paper towels.

Always look for items with little or no packaging.

Use reusable plastic or glass containers for food instead of plastic bags.

Use rechargeable batteries instead of disposable ones.

Go online or to the library to read your favorite magazine, book or newspaper rather than purchasing them.

Use plates, cups and utensils you can wash instead of paper plates, cups and plastic utensils that you have to throw away.

Purchase items in concentrate (such as juice and detergent) when possible.

Choose products in recyclable or refillable containers.

Avoid buying food items in single serve containers.
